

Exploring Industry-Academia-Government Collaboration for Strengthening Disaster Resilience in ASEAN and Japan

- Co-Creation Paving the Way for Resilient Societies -

19 August 2025, 13:00 - 15:30
Hybrid Format ! Free Participation

The ASEAN region and Japan, are located along the Pacific Ring of Fire and faces various disaster risks, including earthquakes, tsunamis, typhoons, and floods. In addition to its geographical proximity, the growing economic and human exchanges between Japan and ASEAN have made the region an increasingly important strategic partner for Japan. As both regions continue to deepen their cooperation and knowledge-sharing in disaster risk reduction (DRR) and management have become essential for the resilience building in both regions.

With the continued economic development of ASEAN countries, Japan's expertise and technology in DRR, once shared through traditional aid mechanisms, are now transforming into more collaborative efforts involving a diverse range of stakeholders, including government, private sector and universities/research institutions.

In light of these developments, this workshop will explore the potential for industry-academia-government collaboration to enhance disaster resilience in the ASEAN region, while proposing new approaches to realizing these goals.

Azman bin Kassim

Masaharu Mizoguchi

Mohd Zaki bin
Mat Amin

Shohei Matsuura

Program

13:00 - 14:15 Presentation

1 Evolving Disaster Risks and the Future of Disaster Risk Reduction in Japan and ASEAN

Prof. Dr. Kaoru Takara (President, NIED)

2 Leveraging Japanese Technology for Landslide Mitigation in ASEAN

Dr. Naoki Sakai (NIED)

3 Industry-Academia-Government Collaboration in Disaster Risk Management: A Case Study from Malaysia - Batang Kali Landslide

Prof. Ir. Dr. Azman bin Kassim (Universiti Teknologi Malaysia: UTM)

4 Development of Sabo technology through Japan-ASEAN industry-academia-government collaboration

Mr. Masaharu Mizoguchi (Yachiyo Engineering Co., Ltd.)

5 Expectation of Industry-Academia-Government Collaboration in Disaster Risk Reduction for a Disaster Resilient Society

Ir. Mohd Zaki bin Mat Amin (National Water Research Institute of Malaysia: NAHRIM)

14:15 - 15:00 Panel Discussion and Q&A

Moderator, Dr. Shohei Matsuura (NIED)

15:00 - 16:00 Networking and Discussion

Location | NIED Tokyo Office
Marklite Toranomon 6F, 2-3-1 Nishi-Shinbashi, Minato-ku, Tokyo

Contact | Disaster Resilience Co-creation Seminar Representative
